

CAPABILITIES STATEMENT

Qal-Tek Associates

QALTEK
INNOVATION | SOLUTIONS

Company Overview

Qal-Tek's diversified portfolio of services and products covers many markets with solutions that have been focused on meeting varied but specific needs. Qal-Tek staff of SME's in radiological response, instrumentation, calibration, testing and training, offer a full-service solution unlike anyone else in the industry. Our deep-rooted culture is embodied by our staff's relentless desire to continually innovate and improve our capabilities and better assist the great men and women who work hard to make our world better and more secure. We guarantee that your experience with Qal-Tek will change the way you evaluate true customer service. Our clients deserve the very best so they can be the best; our passion and mission is to provide them with nothing less.

Company Details

We believe in your mission. Whether your organization is engineering and constructing our nation's infrastructure; laying your life on the line to protect our people, our country and our freedoms; or strengthening our nation's economy through industry and manufacturing; we're here to serve you. We exist to provide you with the best tools and services to improve your operations and safety.

Our job is ensuring your success, and we love what we do. It is in Qal-Tek's DNA to provide the services that are necessary for our clients to perform at their best. We do this with passion, pride, and a burning desire to deliver these services with convenience, quality, and innovation. This culture of dedication to our clients has enabled us to develop new technologies, new instrument platforms, new program and regulatory structures; as well as changing the future of instrument calibration and management. We look forward to sharing the Qal-Tek experience with you!

INNOVATIVE TOOLS, SOLUTIONS, AND
SUPPORT FOR THE WORKFORCES WHO BUILD
A BETTER AND MORE SECURE WORLD.

EMERGENCY & SECURITY DIVISION CAPABILITIES STATEMENT

Qal-Tek's **Emergency & Security Division** offers instrumentation services designed to improve your readiness and technical expertise; training and exercise across all CBRN disciplines; and solution driven, new product sales.

RADIOLOGICAL CALIBRATION LAB

Location: Idaho Falls, ID

- Calibration of most makes & models
- Dose & Count rate calibration
- Instrument Repairs
- ISO 17025 Accredited

GAS DETECTION CALIBRATION LAB

Location: Mesa, AZ

- RAE Systems tech certified: portable & wireless instruments
- Instrument Repairs
- Spare parts and accessories
- Manufacture Warranty

OEM MAINTENANCE SERVICES

- FLIR
- Thermo Scientific
- Mirion
- Proengin
- RAE Systems
- BW Technologies
- Agilent
- Jerome
- Draeger
- EnviroNics, USA

EQUIPMENT MANAGEMENT, MAINTENANCE, CALIBRATION & REPAIR SERVICES.

mEyeCal: our proprietary equipment management software with the ability to track locations, calibrations, repairs, fleets of equipment, maintenance records.

- On-Site Maintenance technicians
- Dedicated account management

TRAININGS:

- Awareness Level (CBRN)
- Operations Level (CBRN)
- Specialist/Technician Level (CBRN)
- ARC – Advance Radiation Contamination
- Radioactive Materials Specialist training (Pro Board Certified)
- Gas detection OEM maintenance training

MANUFACTURE REPRESENTATION

- WB Johnson – Radiation detection
- Thermo Scientific – Radiation detection
- FLIR – Radiation/Chemical/Bio detection
- Mirion – Radiation detection
- Proengin – Chemical detection
- RAE Systems – Gas Detection
- Draeger – Gas Detection
- Kappler – Personal Protective Equipment
- Zumro – Air Shelters
- Saint-Gobain – ONESuit® PPE
- EnviroNics, USA – Chemical/Biological (Chempro X, Chempro 100i)

We are an A2LA accredited and comprehensive service provider of essential calibration of nuclear density gauges and materials testing lab equipment. With a history and resume of technical and regulatory expertise, we focus on customer convenience and quality.

ONSITE CALIBRATION AND REPAIR (OSCaR) SERVICES

Location: Most parts of the USA

- 3-Block gauge calibration (ISO17025 A2LA accredited)
- Troxler, Instron, CPN, & Humboldt gauges
- Limited gauge repairs
- Leak testing
- CMT lab equipment calibrations

GAUGE CALIBRATION & REPAIR LABS

Location: Idaho Falls, ID; Round Rock, TX; Mesa, AZ

- Instrument calibration
- Leak testing
- Instrument Repairs
- New and used gauge sales
- Gauge accessory purchases

RADIOLOGICAL CALIBRATION LAB

Location: Idaho Falls, ID

- Calibration of most makes & models
- Dose & Count rate calibration
- Instrument Repairs
- ISO 17025 Accredited

GAS DETECTION CALIBRATION LAB

Location: Mesa, AZ

- RAE Systems tech certified: portable & wireless instruments
- Instrument Repairs
- Spare parts and accessories
- Manufacture Warranty

EQUIPMENT MANAGEMENT, MAINTENANCE, CALIBRATION & REPAIR SERVICES.

- mEyeCal: our proprietary equipment management software with the ability to track locations, calibrations, repairs, fleets of equipment, maintenance records.
- On-Site Maintenance technicians (ISO17025 A2LA accredited)
- Dedicated account management

TRAININGS:

- RSO Training (40 hr. requirement is a 16 hr/two day class)
- Portable Gauge User Training (PGUT)
- Refreshers for DOT and Portable Gauge Users

MANUFACTURE REPRESENTATION

- WB Johnson – Radiation detection
- Thermo Scientific – Radiation detection
- Mirion – Radiation detection Dosimetry
- RAE Systems – Gas Detection
- Instron – New gauge sales
- Controls Group USA – (New) CMT, Binder, & Asphalt lab equipment

We are an A2LA accredited and comprehensive service provider for essential Industrial-use radiological, toxic gas, and mechanical devices. Including the management of unique license and maintenance requirements, proper documentation, training requirements, NIST traceable calibration, repairs, decommissioning and approved disposals.

CALIBRATION AND REPAIR

Accredited calibration of fixed and portable Nuclear Gauges:
Alpha, Beta, Gamma.

Accredited calibration of fixed and portable toxic gas detection
Comprehensive NIST traceable calibration services

- Area monitors
- Survey meters
- Dosimeters
- All radiation devices
- Personal radiation detectors
- Gas detection (both hand held and fixed)
- ...and more

A2LA accredited

- Micrometers
- Calipers
- Dial Indicators
- Pressure(Pneumatic & Absolute)
- Scales and Balances
- Ovens
- Digital Thermometers
- Force – Measure Compression
- ... and more

On-site device integrity / accuracy
Leak Tests on site

MAINTENANCE AND TRACING

Detailed device, historic, digital tracking
Routine On-site maintenance
Emergency on-site maintenance

DECOMMISSIONING AND DISPOSAL

Comprehensive disposal assist

TENORM Disposal

Site Survey and clean up

Site Closeout

MARSSIM Survey

(Multi-Agency Radiation Survey and Site Investigation Manual)

COMPREHENSIVE LICENSE MODIFICATIONS AND RENEWAL

Radiation Licensing Consulting

License Amendments

Compliance Audits

Representative RSO / Assistant RSO

REGULATORY COMPLIANCE REVIEW

On site radiation survey and report

Custom Programs

NORM monitoring

TRAINING

RSO portable and fixed gauge

User training portable and fixed gauge

DOT training

NORM and TENORM training
